HIV and AIDS: S. Kartikeyan, R.N. Bharmal, R.P. Tiwari, P.S. Bisen

In June 1981, the Centers for Disease Control and Prevention reported the first evidence of a new disease that would later become known as Acquired Immunodeficiency Syndrome (AIDS). HIV and AIDS: Basic Elements and Priorities is a concise collection of all aspects of this disease, and is a source of readily available knowledge. All currently advocated preventive measures such as health education, condom use, safer sex practices, and treatment of sexually transmitted infections have been incorporated. The key elements of this volume are: - up-to-date information on multiple dimensions of the HIV/AIDS epidemic, - discusses new anti-retroviral therapy / drugs, new drugs under clinical trials and preventive HIV vaccine, - covers current ethical, legal and social issues related to HIV/AIDS, - evaluates general public awareness about HIV/AIDS, - includes a global perspective and information about HIV/AIDS. This volume is an excellent reference for science graduates and post graduates, medical students, research scholars and scientists across the world.

This book is recommended by the World Health Organization Eastern Mediterranean Region Office (WHO-EMRO) as a basic resource for medical faculty libraries.

From reader reviews:

Ray Davis:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to find out everything in the world. Each e-book has different aim or goal; it means that guide has different type. Some people truly feel enjoy to spend their time and energy to read a book. These are reading whatever they acquire because their hobby is definitely reading a book. Consider the person who don't like studying a book? Sometime, person feel need book if they found difficult problem as well as exercise. Well, probably you will require this HIV and AIDS:.

James Mendoza:

Here thing why this specific HIV and AIDS: are different and trusted to be yours. First of all studying a book is good nevertheless it depends in the content of it which is the content is as scrumptious as food or not. HIV and AIDS: giving you information deeper and in different ways, you can find any e-book out there but there is no e-book that similar with HIV and AIDS:. It gives you thrill examining journey, its open up your eyes about the thing that will happened in the world which is perhaps can be happened around you. It is possible to bring everywhere like in area, café, or even in your technique home by train. For anyone who is having difficulties in bringing the paper book maybe the form of HIV and AIDS: in e-book can be your alternative.

Gary Ackley:

The book untitled HIV and AIDS: contain a lot of information on the idea. The writer explains the girl idea with easy technique. The language is very clear to see all the people, so do not really worry, you can easy to read this. The book was published by famous author. The author gives you in the new time of literary works. It is easy to read this book because you can keep reading your smart phone, or gadget, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can available their official web-site as well as order it. Have a nice study.

Marina Tucker:

Is it an individual who having spare time and then spend it whole day by watching television programs or just lying on the bed? Do you need something new? This HIV and AIDS: can be the response, oh how comes? A book you know. You are so out of date, spending your time by reading in this brand-new era is common not a nerd activity. So what these guides have than the others?
