German Foreign Policy, 1918-1945: A Guide to Current Research and Resources Christoph M. Kimmich

Christoph Kimmich's *German Foreign Policy, 1918-1945: A Guide to Current Research and Resources* is the most comprehensive guide to archival resources and published materials on the foreign policy of Weimar and Nazi Germany. It lists the archives, libraries, and research institutes, public and private, that hold important collections. While Kimmich's survey emphasizes archives in Germany, it also covers archives in Europe and in the United States, describing their holdings, terms of access and use, and the guides and inventories available.

German Foreign Policy, 1918-1945 also includes a substantial bibliography of published sources, from documentary series to significant contemporary accounts, from the memoir literature to secondary works, with annotations appearing for the more important and the more obscure. This select bibliography concentrates only on works that are serious, innovative, and accessible. It describes the various series of the Nuremberg War Crimes Trial Records and the original trial documents available in archives and libraries. Particular attention is given to the vast and ever increasing availability of materials on the Web, ranging from digitized print materials to archival inventories and source materials. Moreover, in order to facilitate work in the archives, the guide explains the organization and functioning of the German foreign ministry between 1918 and 1945 and notes how it kept and stored its records.

This third edition differs from its predecessor by offering new and critical information on German archives that have since been consolidated and relocated after German reunification, on archival sources of hitherto unknown provenance, and on materials available on the Web. It is a reference source for both the established scholar and the novice planning research and a guide for their visits to archives and libraries, enabling them to find their way quickly and efficiently through the voluminous research and research materials that have come to light in recent years.
