## **The Individuation of God: Integrating Science and Religion** Peter Todd

Todd argues for the integration of science and religion to form a new paradigm for the third millennium. He counters both the arguments made by fundamentalist Christians against science and the rejection of religion by the New Atheists, in particular Richard Dawkins and his followers. Drawing on the work of scientists, psychologists, philosophers, and theologians, Todd challenges the materialistic reductionism of our age and offers an alternative grounded in the visionary work taking place in a wide array of disciplines.
