The Underdome Guide to Energy Reform

Janette Kim, Erik Carver

The Underdome Guide to Energy Reform Janette Kim, Erik Carver

The Underdome Guide to Energy Reform is the first book to map the political implications of energy management in architecture. It reenvision[s] collective priorities in the face of climate change, at scales ranging from the microelectronic to macroregional.

Organized into sections covering power, territory, lifestyle, and risk, *Underdome* catalogs conflicts and affiliations among energy agendas to inform public action and function as a "voter guide." Original illustrations reconsider architecture's symbolic and infrastructural connections to energy politics. Probing essays by urban designer Georgeen Theodore and architectural historians Reinhold Martin, Jonathan Massey, and Michael Osman explore new histories and forms of practice. Transcripts from the Underdome Sessions held at Columbia University Studio-X NYC — which brought together panels of experts in design, policy, economics, and history to attack the climate crisis from multiple angles— create a larger dialogue.

Underdome is a call to action, urging citizens and designers to questions how political ecology can reshape architectural objects and objectives.
