**Forecasting and Management of Technology** Alan L. Porter, Scott W. Cunningham, Jerry Banks, A. Thomas Roper, Thomas W. Mason, Frederick A. Rossini

Published in 1991, the first edition of *Forecasting and Management of Technology* was one of the leading handful of books to deal with the topic of forecasting of technology and technology management as this discipline was emerging. The new, revised edition of this book will build on this knowledge in the context of business organizations that now place a greater emphasis on technology to stay on the cutting edge of development. The scope of this edition has broadened to include management of technology content that is relevant to now to executives in organizations while updating and strengthening the technology forecasting and analysis content that the first edition is reputed for.

Updated by the original author team, plus new author Scott Cunningham, the book takes into account what the authors see as the innovations to technology management in the last 17 years: the Internet; the greater focus on group decision-making including process management and mechanism design; and desktop software that has transformed the analytical capabilities of technology managers. Included in this book will be 5 case studies from various industries that show how technology management is applied in the real world.

The Enjoyable blend here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss it? Find this book and also read it from at this point!

**Silvia Doucet:**

As a university student exactly feel bored to reading. If their teacher inquired them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the educator want, like asked to the library. They go to there but nothing reading critically. Any students feel that studying is not important, boring and can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Forecasting and Management of Technology can make you really feel more interested to read.
