## Reimagining Civic Education: How Diverse Societies Form Democratic Citizens

This volume surveys the new global landscape for democratic civic education. Rooted in qualitative research, the contributors explore the many ways that notions of democracy and citizenship have been implemented in recent education policy, curriculum, and classroom practice around the world. From Indonesia to the Spokane Reservation and El Salvador to Estonia, these chapters reveal a striking diversity of approaches to political socialization in varying cultural and institutional contexts. By bringing to bear the methodological, conceptual and theoretical perspectives of qualitative research, this book adds important new voices to one of education's most critical debates: how to form democratic citizens in a changing world.
