Is the closet just a metaphor? *Closet Space* provides a highly original account of the spatial metaphor of "the closet", and is the first geography text to focus on this important issue. Using a variety of research techniques and materials, the book explores the closet through texts including:

- \* the oral histories of gay men in the UK and US
  - \* the sexualised landscape of a New Zealand city
  - \* the national census of Britain and the US
  - \* international travel guides and travelogues
- and refers to the work of Butler, Lefebvre and Foucault.
