Sign Babies Flash Cards introduce American Sign Language (ASL) signs for the words that babies and small children need most.

The eye-catching illustrations help young children to recognize common objects, actions, and emotions. Parents and educators can use the cards to facilitate learning signs that children can use to communicate before they can speak.

The flash cards can be presented individually to facilitate learning signs or in a 4 x 6 photo album to create a custom "book" that focuses on the words and concepts children are learning. The ASL sign and hint on the back side help adults remember the signs.
