## **Sex in Cyberspace: Men Who Pay For Sex** Sarah Earle, Keith Sharp

Sex in Cyberspace offers a bold and provocative, yet sensitively written, account of an under-investigated area of sociological enquiry. While there is a considerable amount of research documenting the experiences of sex workers, very little data exists on their male clientele. The first empirically-based volume on the experiences of men who pay for sex, this work presents a significant new source of data. The book is based upon an extensive study of on-line forums in which both the purchasers of sexual services and the workers themselves can exchange information and views – information which is otherwise extremely difficult to obtain. Sarah Earle and Keith Sharp argue that such sites represent a significant change in the social organization of sex work and those who seek and use the services of sex workers. Shedding new light on men's sexual identity, Sex in Cyberspace makes a major contribution to the study of sexuality.
