Psychologists have long realized that the ancient Greeks had deep insights into the human psyche which, whether they realized it or not, they expressed through their mythology. Peter Lemesurier's new book offers a way of using these insights directly as a startling new method of self-healing and self-realization. In the full tradition of Joseph Campbell, James Hillman and Karl Kerenyi, it applies the dynamics of the Greek myths to quite overwhelming effect - as many who have used the approach report.
